RE: Failure to Submit a Disinfectant Level Quarterly Operating Report (DLQOR) MONITORING, ROUTINE (DBP), MAJOR/CHLORINE

BWSC Member:

The BUTLER WSC water system PWS ID 0810013 has violated the monitoring/reporting requirements set by Texas Commission on Environmental Quality (TCEQ) in Title 30, Texas Administrative Code (30 TAC), Section 290, Subchapter F. Public water systems are required to properly disinfect water before distribution, maintain acceptable disinfection residuals within the distribution system, monitor the disinfectant residual at various locations throughout the distribution system, and report the results of that monitoring to the TCEQ on a quarterly basis.

Results of regular monitoring are an indicator of whether or not your drinking water is safe from microbial contamination. This violation of "Failure to submit a Disinfectant Level Quarterly Operating Report" occurred for the third quarter (July, August and September) monitoring period of 2025.

We have taken the following actions to address this issue:

The 3rd Quarter Disinfectant Level Quarterly Operating Report" for July, August and September was submitted to TCEQ on January 21, 2026.

Please share this information with all people who drink this water, especially those who may not have received this notice directly (i.e., people in apartments, nursing homes, schools and businesses). You can do this by posting this notice in a public place or distributing copies by hand or mail.

If you have questions regarding this matter, you may contact Butler Water Supply Corporation at 903-389-7786.

Certified posting by Kelly L. Tyus, Office Manager, on February 4, 2026.
